(parent or legal guardian) (child's name)

grant my permission for my child to participate in a research study in which my child will be administered the Test of Everyday Attention (TEA-Ch). I understand that the purpose of the study is to administer the TEA-CH to a wide variety of children in the U.S. By signing this form, I am also documenting that my child qualifies for this study based on the characteristics identified by the examiner.

No identifying information about your child will be kept in any way. Your child will be assigned a case number. When the TEA-Ch test booklet and permission slip from your child are sent into the researchers, the parental permission slip with your child's name will be separated from the test booklet and kept in a locked secure location. Your child's performance on this test will be averaged into group data only.

I understand that there will be no charge for participating in this research study and that I will receive a summary of my child's TEA-Ch test results.

Pearson Assessment, Inc., the publisher of the TEA-Ch, approves this research study. If you have any questions about this study, you may contact the Principal Investigator, Dr. Dan Miller, at (940) 206-0504 or dcmiller@kidsinc.com
